

# How to join worship via live video

During lockdown, our worship will be conducted via live video link from the vicarage. To join in, follow these steps:

1. Ensure you have a computer, laptop, smart phone or iPad that has a camera and microphone.
2. Check that Alison has your email address. You will receive a new invitation via email to join each worship event; it has a unique meeting code number.
3. Download the software from the zoom website onto your device (phone, computer, laptop or iPad) : [www.zoom.us](http://www.zoom.us)
4. Check your email for the invitation to join worship. Make a note of the meeting code number. Click on the long line of text and numbers highlighted in blue in the email. This will open the app and start to connect you to the meeting. You may need to confirm the meeting code number.
5. You may need to click on the icon to start your camera.

And that is it! If you want help connecting, please contact the wardens who will help you with this process. Once it's set up, it's much easier than it sounds.

Coming soon: live streaming from church. Work to provide wireless connectivity to allow us to stream worship from church is in hand. Naturally there will be no normal services we could stream during the November lockdown

We really look forward to seeing you at our services!
